

Connected Leadership Strategy 27: Healthy relationship

Supporting students as they develop their strengths

Connection to Belonging: Psychological safety 📖, Connection 🔗, Support ❤️, Pride 😎, Unique contribution 🦄, Welcome Spaces 🏠

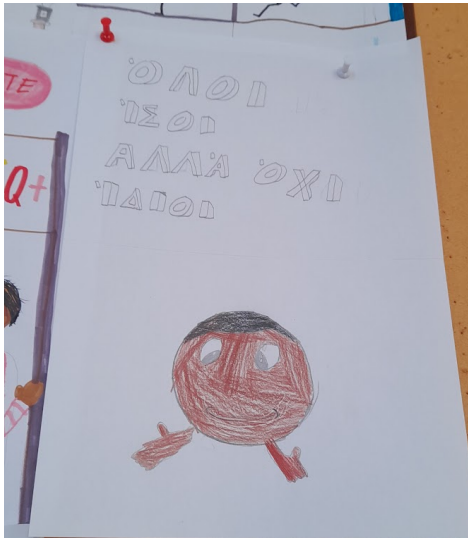

Inspiration: In Kostas' sixth-grade class 1st Experimental Primary School of the University of Athens (Marasleio), student artwork is posted around the room. The work is a reminder of a past health unit during which students discussed different kinds of relationships. They also talked about what makes a healthy relationship. These posters demonstrate student understanding of a spectrum of relationships. Displaying student work in the classroom also values students' artistic abilities and their ability to convey important information to their audience.

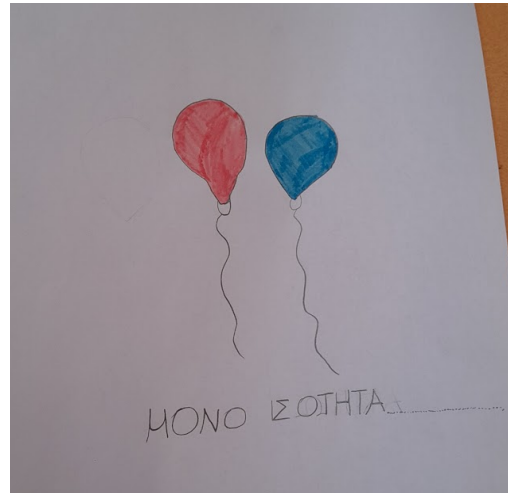

Title translated: All are welcome here

Title translated: The ways we are.

Text translated: All equal, but not the same.

Text translated: Only equality

Supportive Art Strategy: In the United States, some of the posters from this classroom would not be permitted. However, talking about healthy relationships and putting student projects on the wall are essential steps in creating a welcoming environment.

Competencies: Confidence, Creativity, Communication
